CAREER OBJECTIVE

Passionate front-end developer with strong expertise in JavaScript, HTML, and CSS, aspiring to become a full-stack developer. Seeking opportunities to leverage modern technologies, collaborate on innovative projects, and contribute dynamic web solutions.

PROJECTS

ShantiSpace – Mental Health and Wellness Platform

- A full-stack mental wellness platform offering personalized mental health screening, calming UI, and community support using **React, Firebase, Gemini API, Node.js, MongoDB and Tailwind CSS**.

Wasabi Restaurant Webpage

- A stylish website for a restaurant with menu details, online booking, and contact features. Developed using **React JS**.

Digital Studios Webpage (Training Project at Yhills)

- Developed a website for a hypothetical Digital Photography Brand, by the use of **HTML, CSS, JavaScript and Bootstrap**.

College Forum Website (Training Project)

- Developed a College Forum Website for my college with separate Admin and Student Dashboards, enhancing engagement and collaboration. Built with **HTML, CSS, and JavaScript**, and integrated Firebase for secure user authentication.

SKILLS

- Technical Skills:** HTML | CSS | JavaScript | React.js (Beginner) | Bootstrap | C++ | Git | GitHub | Firebase
- Soft Skills:** Strong Communication | Problem-Solving | Leadership | Teamwork | Creative Writing
